CASE FILE — AUTOMATED INTAKE & REVIEW

CONDITIONAL

72
FIT / 100

PROCEED WITH CAUTION

The company demonstrates a strong technical fit for the mandatory deliverables and possesses relevant government project experience. However, a critical gap in Cyber Liability insurance (\$2M vs \$5M required) is a significant unaddressed requirement. Additionally, the company lacks in-house capabilities for the optional mobile app and GIS features, and its stated revenue may raise concerns regarding financial stability for a multi-year public sector contract.

COMPLIANCE GAPS

§1 DELIVERABLES & TIME ESTIMATE

01 Online Applicant Portal

Public-facing web portal for online permit application submission, document upload, real-time status tracking, mobile-responsive design, and WCAG 2.1 AA accessibility compliance.

MANDATORY 8 wk estimate

02 Internal Workflow & Review Engine

Configurable, rules-based routing engine for applications, supporting parallel and sequential review workflows, automated SLA tracking and escalation alerts, and role-based access control.

MANDATORY 8 wk estimate

03 Payment Processing Integration

PCI-DSS compliant payment gateway integration for permit fees, supporting credit card, ACH, and e-check payments, automated fee calculation, and refund processing.

MANDATORY 4 wk estimate

04 Reporting & Analytics Dashboard

Real-time dashboard for department heads showing permit volume, turnaround time, and bottlenecks, with exportable reports and historical data migration from legacy system (approx. 9 years of records).

MANDATORY 6 wk estimate

05 Mobile Inspector App

Native or hybrid mobile app for field inspectors to log inspection results offline, sync when connected, with GPS tagging and photo attachment.

OPTIONAL 10 wk estimate

06 GIS / Parcel Mapping Integration

Integration with the City's existing ArcGIS parcel database to auto-populate property information on application submission.

OPTIONAL 8 wk estimate

§2 EVALUATION CRITERIA — HOW THE CLIENT WILL SCORE US**Technical Approach & Functional Fit (D1-D4) 35%**

Evaluation of the proposed technical solution and its alignment with mandatory deliverables.

Vendor Qualifications & Past Performance (3+ similar government engagements) 20%

Assessment of vendor's experience, particularly with government/public-sector contracts.

Cost / Total Cost of Ownership 20%

Analysis of the proposed costs, including implementation and recurring fees.

Implementation Timeline & Project Plan Feasibility 10%

Review of the proposed project timeline and plan for feasibility and adherence to target milestones.

Security, Data Privacy & Compliance Posture 10%

Evaluation of the vendor's security measures, data privacy practices, and compliance with regulations.

Optional Value-Adds (D5, D6) 5%

Assessment of optional deliverables for additional value to the City.

§3 DEPARTMENT COMPLIANCE CHECKLIST

ACCOUNTING

- | | | |
|-------|--|---------------|
| ? | <p>Standard City payment terms are Net 45; vendor must accept these terms.</p> <p>Company's acceptance of Net 45 payment terms needs to be confirmed.</p> | REVIEW |
| <hr/> | | |
| ✅ | <p>Proposal must include a detailed, itemized cost breakdown: one-time implementation costs, recurring annual subscription/license/hosting costs, and any optional module costs (D5, D6) priced separately.</p> <p>Assumed capability to provide a detailed cost breakdown.</p> | MET |

	Vendor must provide pricing firm for the full initial 3-year term; price escalation in renewal years capped at 3% annually or CPI, whichever is lower.	REVIEW
	Company's ability and willingness to provide firm pricing and capped escalation needs confirmation.	
	Vendor must be registered and in good standing in the State, and able to provide a current W-9 and Certificate of Insurance within 5 business days of award.	REVIEW
	State registration and ability to provide documents quickly needs confirmation.	
	Vendor must disclose annual revenue and provide 2 most recent audited financial statements or equivalent, demonstrating financial stability to support a multi-year public sector contract.	GAP
	Company revenue is under \$10M/yr, which may be a concern for demonstrating financial stability for a \$0.85M-\$1.2M contract.	
	No payment will be made prior to acceptance testing sign-off for each deliverable milestone.	REVIEW
	Company's acceptance of payment terms tied to acceptance testing needs to be confirmed.	
TECHNICAL		
	System must be cloud-hosted (SaaS or City-approved private cloud); on-premise solutions will not be considered.	MET
	Company offers cloud-based workflow & case-management SaaS.	
	System must provide 99.5% uptime SLA, measured monthly, excluding scheduled maintenance windows.	REVIEW
	Specific uptime SLA needs to be confirmed, though common for SaaS.	
	System must support Single Sign-On (SSO) via SAML 2.0 integration with the City's existing Azure AD environment.	MET
	Company is strong in SSO/SAML.	
	All data must be encrypted at rest (AES-256) and in transit (TLS 1.2+).	MET
	AWS GovCloud hosting typically includes these encryption standards.	
	Vendor must provide a documented disaster recovery plan with a Recovery Time Objective (RTO) of 4 hours or less and Recovery Point Objective (RPO) of 1 hour or less.	REVIEW
	Specific DR plan details and RTO/RPO need to be confirmed.	
	System must provide a documented, versioned REST or GraphQL API for future integrations.	MET
	Company is strong in REST APIs.	

Vendor must conduct a third-party penetration test prior to go-live and annually thereafter, at vendor's expense.

REVIEW

Willingness and process for third-party penetration tests needs to be confirmed.

System must be hosted on infrastructure located within the continental United States; data residency outside the U.S. is not permitted.

MET

Company uses AWS GovCloud hosting, which is US-based.

OPERATIONS

Proposals must be submitted electronically via the City's eProcurement portal by the deadline stated on the cover page (August 10, 2026, 5:00 PM Local Time).

MET

Assumed capability to meet standard electronic submission requirements and deadlines.

Proposal must not exceed 40 pages (excluding resumes and financial statements).

MET

Assumed capability to adhere to page limits.

Proposal must include signed Attachment A (Vendor Certification), Attachment B (References – minimum 3 public-sector references), and Attachment C (Indemnification Acknowledgment).

MET

Company has 4 municipal/county digital-services projects, meeting the reference requirement.

§4 OPPORTUNITY ASSESSMENT

Key reasons behind the CAUTION call:

- Strong technical alignment with core mandatory deliverables (D1-D4).
- Proven experience with municipal/county government projects.
- Significant gap in required Cyber Liability insurance coverage (\$2M vs \$5M).
- Lack of in-house capabilities for optional mobile app and GIS integration.
- Company's annual revenue may be a concern for financial stability assessment.

Potential disqualifiers:

- Cyber Liability insurance coverage of \$2M is below the mandatory \$5M requirement.
